

Reach New Heights

The Nautilus Tower from Outdoor Ventures offers a unique opportunity for people of all ages across the spectrum of mobility to reach new heights.

The Tower complements existing attractions, as well new developments, with an accessible way for any visitor to climb to a height of up to 115' feet and enjoy the view.

Whether situated among the trees, the seaside or in an urban area, the Nautilus Tower offers an inclusive experience for recreation, education and observation.

Key Features:

- Simplified construction with streamlined fabrication and construction times.
- ADA accessible ramp plus a staircase that can be used for access and fitness.
- Small footprint with low-to-no soil disturbance and no guy wire hazards.
- Modular with optional features and add-ons to serve your specific audience.
- Revenue-generating opportunities through sponsorship partners, advertising placement or rental as a cell tower.
