# Outnumbered

# Engineered to drive traffic to your venue.

Outnumbered is a competitive target shooting video game specifically engineered to drive traffic to your venue by rewarding people every time they play. Players unlock in-game content after each stage, which they can use to create and upgrade custom weapons in the game's free companion app. Pop culture themes, live leaderboards and an endless combination of weapons provides broad appeal to both casual and hardcore gamers.

Outnumbered will keep players coming back to your venue time and time again.

- ⊘ Single or double players
- ⊘ Competitive, global community
- ⊘ Live leaderboards encourage competitive play
- ⊘ Gameplay cycles drives recurring traffic
- ⊘ Backed by Industry's best support team

# The Outnumbered: Weapon Forge App

Outnumbered: Weapon Forge ushers in a brand new paradigm for arcade games. This powerful app lets players build their own weapons to use in the game, creating a revolving door for repeat play. Geo-location features let players find the closest game, and push notifications alert users directly through their phones with updates and promotions, enticing them back to the arcade. The app is a marketing and engagement engine for your game!
