The games

Explore series

5 games

Imagine your customers flying over the mountains, the desert, the city, or even the moon.

With ParadropVR they can explore any environment you can imagine.

Choose from our library of exciting, immersive, and adventurous games.

Alternatively, Frontgrid can plan, design and curate custom content to suit your location, brand, chosen IP and vision.

Community

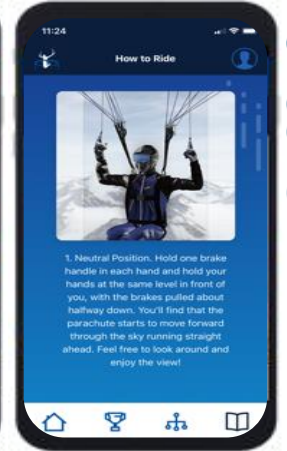

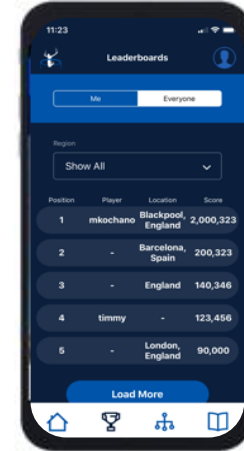

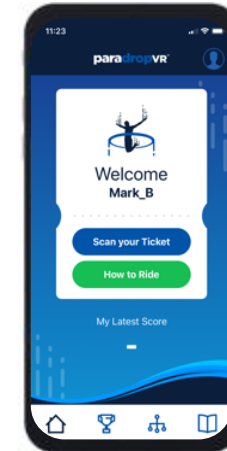

Rize amplification

Local, national and global leader board
Mobile app

- See where you are placed on the leader board
- Use the QR code to download the app
- Flyers give their email address to see their score and for tips on how to fly
- Email address provides further marketing opportunities for your venue

Market to your customers pre, during and after their flight

Pod amplification

Master dips and turns and slalom your way through the sky, scoring points along the way.

Rise through the ranks of the Parasphere league.

On our online platform:

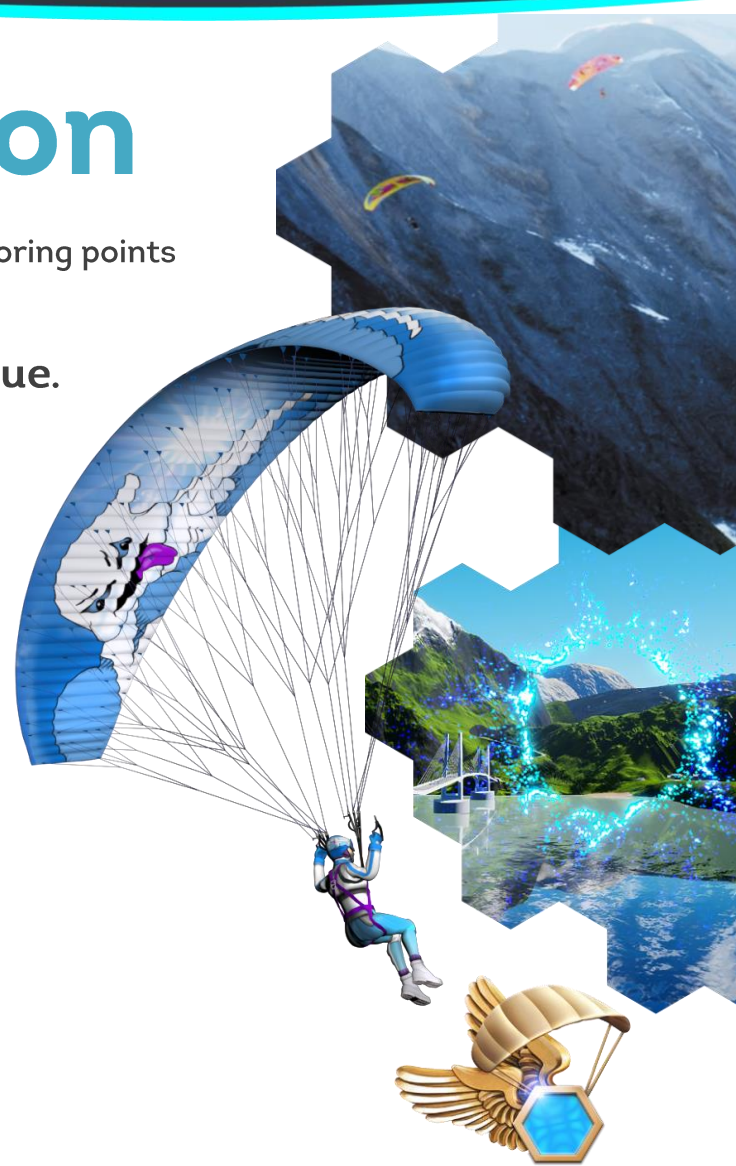

Flyers can:

- Set up a personal profile
- Track their score
- Earn their pilot wings
- Look up their local, national and global league
- Share their score on social media

Operators can:

- Collect email addresses
- Market to your audience pre, during and post event

Repeatability. Events. Esports

Support, content & business models

Support & content

We also offer different levels of content and support subscription plans – Starter, Pro and Enterprise.

We will recommend which plan best suits your needs.

Annual support subscription

- Delivers on your technical, maintenance and optimisation needs
- Futuristic management of your experience using our digital operators panel

Annual content subscription

- Pay an annual subscription fee for any number of our existing games
- Choose to pay to add more games as we release them so your installation continues to evolve

Custom content

- Commission Frontgrid to create custom content for you

Thank you
