

PlayFountain

Refreshing water fun

that brings people together

Let's play and try to stay dry.

Welcome at **The PlayFountain**

Exciting water games and shows that invite children to play while entertaining crowds of all ages. The PlayFountain is modular and mobile for quick and easy set up; anytime, anywhere. Your audience is waiting for the one-of-a-kind PlayFountain experience!

Refreshing water fun that brings people together

An all season innovative mobile water attraction developed for amusing and activating children. Our play fountain consists of a modular floor area of 100 m² equipped with 1.024 water jets which are controlled by pre-programmed software to create dozens of water games that unlock a unique experience. The water games are playful, challenging and attractive at the same time.

In the summer months, The PlayFountain offers cool refreshment in warming cities, theme parks or holiday resorts. In other occasions it is an exciting challenge to stay dry. The water in combination with lights and music create a pleasant theatrical atmosphere and scenery. The PlayFountain is a multifunctional attraction for all ages.

Enjoy!

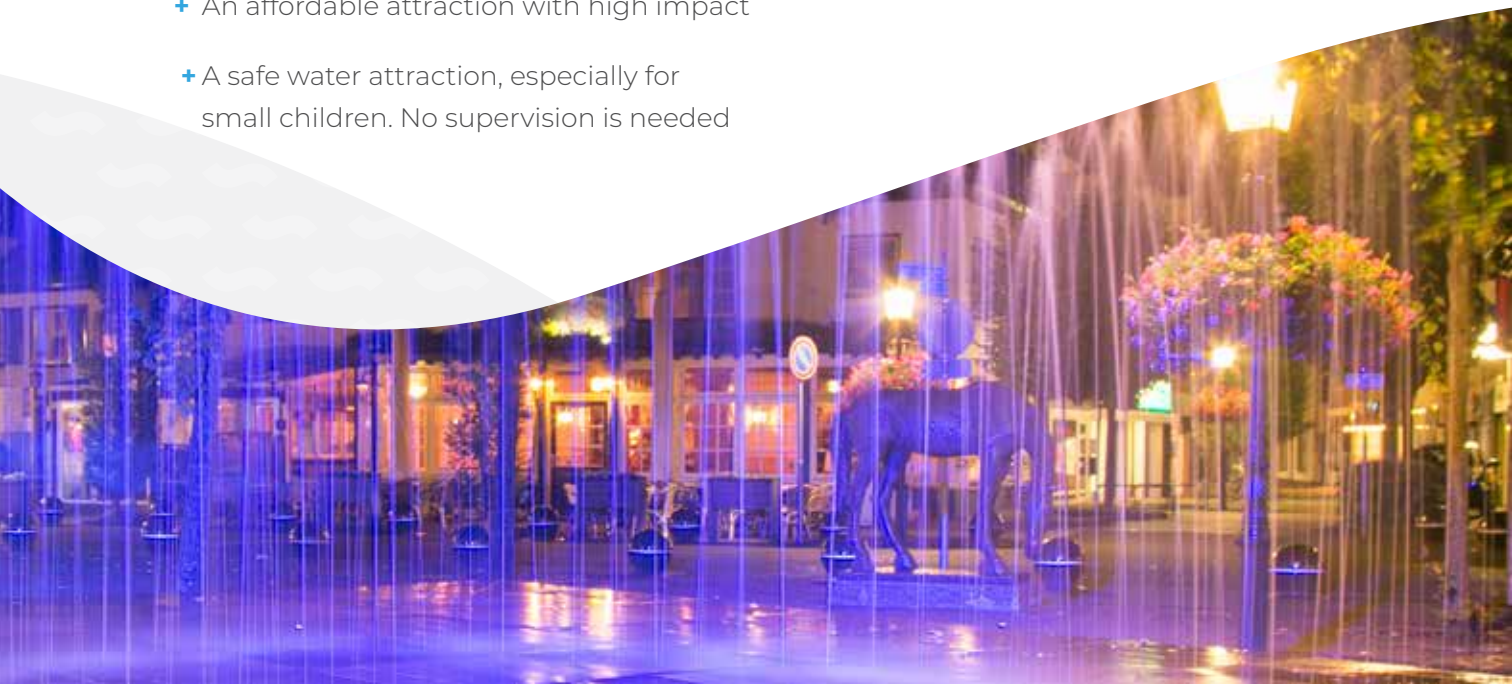

The PlayFountain is a truly unique product, designed with simplicity and easy operation in mind. Shipping, installation and management are resource and cost-efficient.

Once up and running, the PlayFountain is a highly effective safe way to activate local communities and businesses.

The PlayFountain is:

- + The first mobile play fountain worldwide
- + Exciting, intuitive and interactive water games
- + Entertaining for all ages, playing and watching
- + A crowd magnet for events and locations
- + An eyecatcher at the heart of city centres, theme- and bungalow parks
- + A social attraction where people come together
- + Extremely suitable in times of increasingly warmer cities
- + An affordable attraction with high impact
- + A safe water attraction, especially for small children. No supervision is needed

What makes The PlayFountain so special?

Games and show program

We offer a multifunctional attraction and entrainment area that also serve as a fixed/ permanent or mobile stage for artists, musicians, dancers, speakers for all kind of events or occasions. It's a game and a show program in one. The PlayFountain is equipped with an audio and lighting system which runs automatically. Each water game is accompanied by matching music that the youthful players often recognize. The show program can be activated in the evening, for more spectacular water shows with colourful illuminated water and sounds.

Easy to use

The associated and cooled control room provides water treatment, software and power supply, which can be monitored and controlled remotely. The operator therefore only needs to inspect the site once a day to comply with legal safety regulations. All functionalities for games and water quality are pre-programmed. The PlayFountain can automatically start or stop various games programs at pre-set times, rinse the filters, measure the water quality and even regulate the water supply. All actions are automatically logged.

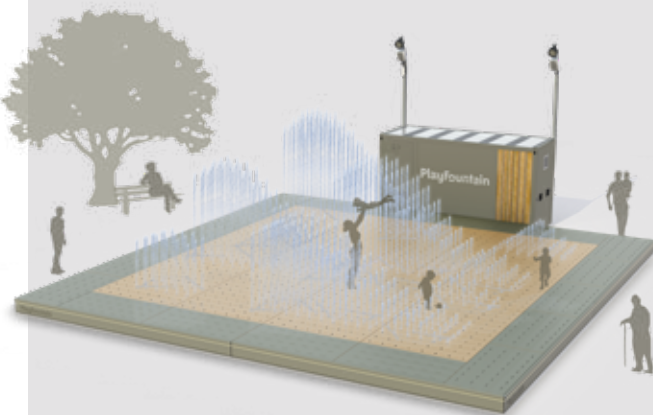

The control room is equipped with a camera for remote surveillance and visual control. The images are only available to you and / or assigned operator and are kept and stored in accordance with legal regulations.

Easy set up

The PlayFountain is available as a permanent or mobile installation. It's easy to set up or dismantle at any location within one day. The connection and operation are simple and only regular water, electricity and internet connection is needed.

Sustainable and safe

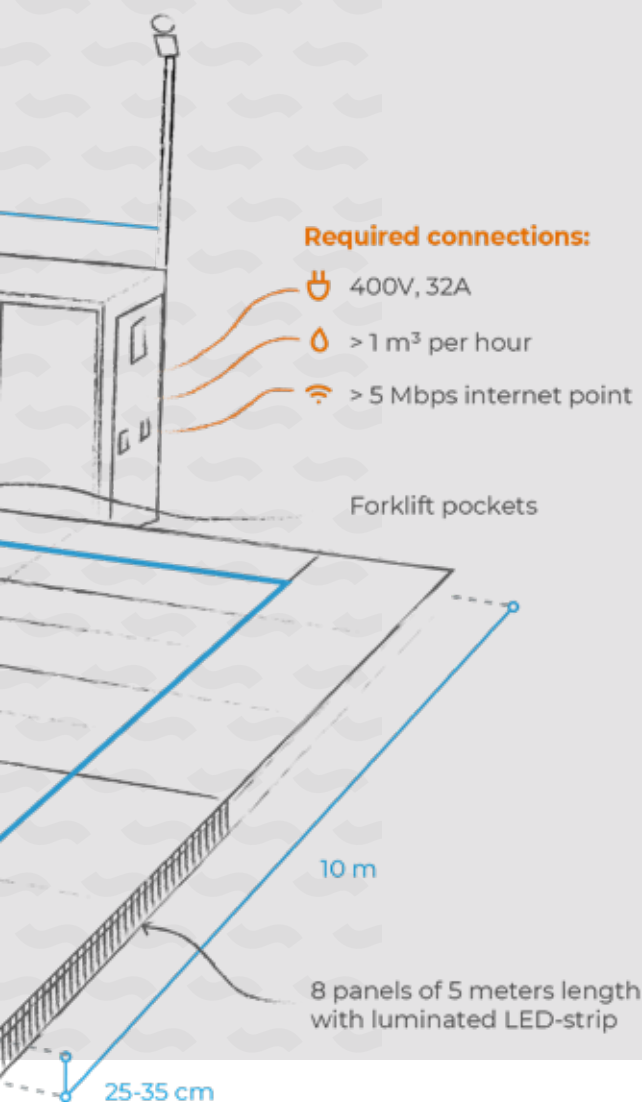

This brand-new attraction is a revolutionary product in which water, electricity and mechanics are combined in a proven way that meets all safety standards.

Thanks to the patented energy storage system, The PlayFountain uses about the same amount of energy as one refrigerator, it's very energy efficient! The same goes for the water. Water is continuously reused and therefore not wasted.

The playing floor and supporting structure are made of 100% recyclable aluminium and meets all standards, including anti-slip and playground equipment safety.

PlayFountain is a completely safe play area for children without direct superficial from parents or supervisors.

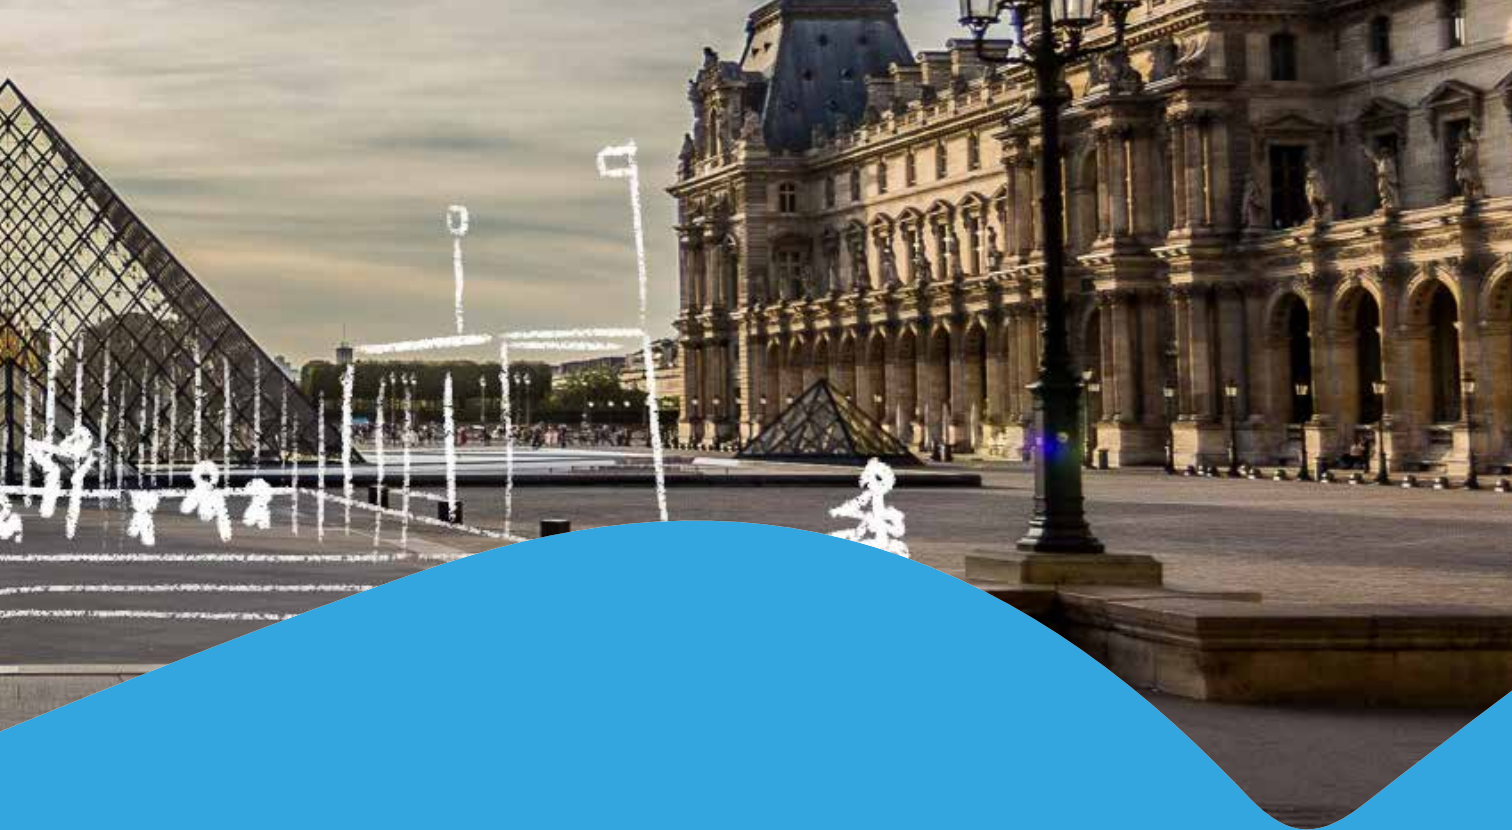

We love to tell you more about our PlayFountain and believe it is important that it is clear what you can expect from us.

Therefore, you can contact us, and we will provide you with information or a brochure with all the specifics about The PlayFountain operational and technical use and customer-supplier agreements.

We offer an on-site training for your service technicians during the setup of the first PlayFountain. Thereafter, our technical support team is remotely available to answer your question and to advise where needed so you and your visitors can fully enjoy our extraordinary and entertaining water attraction.
