

**SURFER**

*“...arguably the most rippable artificial waves on the planet.”*

# PERFECTSWELL®

PerfectSwell® is the premier, patent-protected sport and entertainment concept where world class surf and a relaxing sand beach come together for an unforgettable experience.

**The Surf**

## ARENA

### IVARIETY

Only PerfectSwell® surf technology allows for the creation of a massive variety of waves. The software is the secret sauce. Imagine a keyboard, but instead of music, you're composing waves. Why does this matter? The experience is always evolving, bringing customers back for more.

### PREMIER PERFORMANCE

Surfers have spoken, and PerfectSwell® produces the waves they want. From backflips that go viral, to contests aired on ABC, PerfectSwell® is changing the game. PerfectSwell® is the only technology capable of advancing through sport through general participation while also meeting the requirements for the highest levels of professional competition.

### FLEXIBLE FOOTPRINT

PerfectSwell®'s patented Infinite Ocean™ pool design has the flexibility to fit into a variety of footprints. Walls or no walls, big or small, high performance surf is available in spaces smaller than a football field. PerfectSwell® creates a beach atmosphere with sand, surf, umbrellas and cabanas miles from any ocean.

### EVERYBODY SURFS

Can someone that has never surfed learn on PerfectSwell®? Absolutely. With no moving parts in the water, and the ability to create small waves at the touch of a button, beginners can learn in a safe and controlled environment. On PerfectSwell®, everybody surfs.
