

WALLTOPIA

TREE COURSE

THE CONCEPT

The Tree Course is a ropes course with outstanding design.

Unlike regular ropes courses that put the focus mainly on functionality, the Tree Course is also designed to captivate visitors' attention. It combines a great physical challenge with an immersive experience no other ropes course can rival.

THE STRUCTURE

Footprint
73 m² / 786 ft²

Aerial Footprint
570 m² / 6,150 ft²

- 1 to 3 levels of obstacles
- Up to 96 obstacles
- Viewing deck with a capacity of 100 people (2 & 3 levels versions)
- Optional lift to make viewing deck accessible to wheelchair users
- Multiple upselling add-ons options

	Obstacles	Maximum capacity	Deck capacity	Height	Operators
1 Level	32	48	N/A	12 m / 39 ft	1-2
2 Levels	64	96	100	18 m / 59 ft	2-4
3 Levels	96	144		26 m / 85 ft	4-6

OBSTACLES

Bridges

Bridges consist in horizontally connected elements and usually allow the participant to step on the rope which connects the floor elements. They tend to offer more width than the other types and are generally easier.

Platforms

Platforms are made of individual elements. Participants must step on these to complete the obstacle. The size of the elements and the distance between them govern how hard these are. Both hands and feet are usually involved.

Traverses

Traverses rely on vertically aligned elements which offer little to no width resulting in participants having to adopt a sideways motion to complete them. Alike platforms, traverses typically involve both feet and hands as well.

Specials

Specials, as the name suggests, refer to unique obstacles which are hard to put in a single category. These obstacles provide a mix of different experiences.

ADD-ONS

Rollglider

The Rollglider is an aerial roller coaster-zip line, designed to provide the feeling of free flying in a safe environment. The flight is not only enjoyed by thrill-seekers but also by people seeking novel and exciting experiences.

FlightLine Free Fall Device

It gives jumpers a thrilling free fall experience before softly catching them and lowering them onto the ground. It offers a secondary exit from the Tree; we recommend charging it as an extra on top of the price of the ticket.

Zipline

The zipline add-on also offers a secondary exit from the course to the visitors. This last rush of adrenaline acts as a “grand finale” and leaves a long-lasting impression on the visitors’ mind. We recommend charging it as an extra on top of the price of the ticket.

Observation binoculars

Reward your visitors with a way to enjoy the surrounding scenery once they’ve reached the top with our observations binoculars.

OVER 1800 PROJECTS

IN 78 COUNTRIES ON 6 CONTINENTS

Founded in Bulgaria in 1998, Walltopia is a world leader in the Climbing and Adventure & Leisure industries. The company started out with the purpose of designing and manufacturing the most advanced climbing facilities in the world.

Our passion for science, technology and our obsession with excellence and safety, made us a leader and top expert in the Climbing and Active Entertainment industries.

We pride ourselves with our highly complex projects that always deliver expected results – starting with the design, moving on to the installation and finally – the certification.

Today we have the largest portfolio of classic and novel attractions that combine fun and entertainment with healthy doses of adrenaline for people of all ages. With sales offices in the USA, Canada, China, UAE, Asia Pacific, a Head office in Sofia, Bulgaria and four production plants employing more than 600 people, to this day, we have produced over 1800 projects in 78 countries and on 6 continents.

Our products are installed across adventure parks, amusement parks, shopping malls, gyms, recreational areas, ski resorts, schools & universities, hotels and more.
