

attractionsTECH by blooloop is a half day conference at ISE 2019 focusing on the trends in technology at visitor attractions.

attractionsTECH will be held at the Okura hotel, close to the RAI Amsterdam.

The summit will explore how state-of-the-art technology is enabling theme parks, museums, water parks, zoos and cultural and heritage attractions to develop increasingly sophisticated and immersive experiences. VR, AR and MR are creating richer guest experiences and helping turn attractions into destinations.

attractionsTECH will explore key examples of successful rides, exhibits and attractions and see contributions from the operators and the leading players behind their creation.

We offer a selection of sponsorship opportunities that will enable you to combine your brand message with the value of what promises to be an inspirational and influential event. Sponsors will benefit from the targeted industry exposure that only Blooloop can offer before, during and after the show both online and in promotional materials.

Sponsorship Opportunities
